This certificate is issued in accordance with Regulation 5 of the Hazardous Substances and New Organisms (Personnel Qualifications) Regulations 2001

This certifies that the handler has met the relevant requirements for the substances and lifecycles specified below:

Substances/classes:

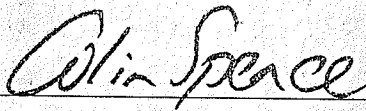

Agrichemicals 6.1A, 9.1A, 9.2A, 9.3A, 9.4A

Lifecycles:

Use, Storage, Disposal

Conditions:

- 1) Unless surrendered or revoked beforehand, this certificate shall remain in force until the 17/09/2019 and may be renewed thereafter by a test certifier who is approved by ERMA New Zealand to issue Approved Handler Certificates.
- 2) This certificate must be produced at the request of an enforcement officer appointed under the HSNO Act 1996.
- 3) Special Conditions: Handlers of Agrichemicals - "Agrichemicals" has the meaning given in the latest version of New Zealand Standard 8409:2004 - Management of Agrichemicals. It includes agricultural compounds, veterinary medicines, fumigants, detergents and sanitizers (unless approved under the Dairy Industry Regulations) used in an agricultural context.
This certificate **excludes:** substances being used in a Built Environment (Urban Pest Management), vertebrate toxic agents, fertilizers and oral nutritional compounds or explosives and flammable substances (except as properties of agrichemicals), or fumigants that require a licence and 6.7A substances e.g. formaldehyde.
This certificate is **limited** to "on farm/orchard" storage or minor storage.

Issued 18/09/2014
